ANNOUNCES PROMOTION & DISTRIBUTION AGREEMENTS FOR EMSELEX®/ENABLEX® IN EUROPEAN COUNTRIES

Toronto, August 20, 2013 - Merus Labs International Inc. (“Merus” or the “Company”) [TSX: MSL, NASDAQ: MSLI] is pleased to announce that through its wholly owned subsidiaries, Merus Labs B.V and Merus Labs Luxco S.à R.L., it has entered into promotion and distribution agreements with selected partners in certain European countries for the Company's Emselex®/Enablex® product. Emselex®/Enablex® (darifenacin) is a branded prescription medicine in extended release tablet form which is a muscarinic antagonist indicated for the treatment of overactive bladder with symptoms of urge urinary incontinence, urgency, and frequency.

The partner companies and corresponding territories are as follows; Merz Pharma (Schweiz) AG (Switzerland), Arriani Pharmaceuticals SA (Greece), Vivax Pharmaceuticals s.r.o (Slovakia) and Eurocept B.V (Belgium). Under the terms of the agreements, the partner companies have been granted exclusive rights to distribute, market, and sell Emselex®/Enablex® in their respective territories.

Although the financial terms of the agreements have not been disclosed, the general structure of the arrangements are such that the partners contribute the local marketing and sales resources in exchange for a portion of the incremental net sales generated above the current annual baseline net sales. Other than Switzerland for which Merz had a previous Emselex®/Enablex® marketing and sales arrangement with Novartis, the territories covered by these new distribution and promotion agreements did not have any substantial marketing and sales resources devoted to the product in recent years.
